SUMMARY OF EXPERIENCE:

Over fifty years of practical experience in engineering, construction, and related management. This experience has encompassed managing the design and construction of bridges, highways, streets, roads, landscaping and irrigation, rail systems, traffic signal systems, streetlight systems, sanitary sewers, storm drains, utilities, pipelines, tunnels, dams, airports, oil refineries, nuclear facilities, deep excavations, heavy foundations, office buildings, schools, high-rise buildings; the preparation of working drawings and specifications; acquisition of property by eminent domain, and the management of activities during the construction phase of projects.

Over forty years of experience and more than two thousand hours spent in depositions, hearings, testimony, and related presentations as both an expert and a percipient witness. This experience has been gained “on the witness stand;” at arbitrations and mediations; with Dispute Resolution Boards; with commissions, boards, and councils; with the State of California Joint Legislative Committee on Sunset Review; and in closed Executive Sessions of legislative bodies. I have also acted as a negotiator, a mediator, a project neutral, and a member of Dispute Resolution Boards. I have participated in jury selection and as the owner’s lead in preparing for trial. My experience has been gained as an owner, as a designer, as a contractor, and as an independent expert for both plaintiffs and defendants encompassing in excess of fifty separate legal actions.

EDUCATION:

BACHELOR OF SCIENCE - Civil Engineering, Santa Clara University, 1968
MASTER OF SCIENCE - Civil Engineering, Santa Clara University, 1970
University of California Extension, Berkeley
Pepperdine University, School of Law, Straus Institute for Dispute Resolution

PROFESSIONAL LICENSES:

Civil Engineer, California, Nevada, Hawaii, Washington
Structural Engineer, California, Nevada, Hawaii
Geotechnical Engineer, California
General Contractor (A & B), California
California Community College Instructor Credential in Engineering

PROFESSIONAL SOCIETIES:

Fellow, American Society of Civil Engineers
Member, Structural Engineers Association of California
Member, California Geotechnical Engineering Association
Member, American Public Works Association
Member, Dispute Resolution Board Foundation

BOARDS AND COMMISSIONS:

California Board for Professional Engineers, Land Surveyors, and Geologists (BPELSG) (Member Emeritus) (Member CE TAC)
Santa Clara University Ambassador
San Jose City Employees Foundation Board of Directors
Mercatus, Inc. – Advisory Board
The Vineyards of Saratoga Board of Directors – President

JAMES W. FOLEY, P.E.
DETAILED SUMMARY OF EXPERIENCE

2002 TO PRESENT: James W. Foley, P.E. - Engineering and Construction Consultant

Currently providing consulting services to the engineering and construction industry. These services include negotiation, arbitration, mediation, participation on Dispute Resolution Boards, Dispute Resolution Advisor, project re-alignment intervention, forensic investigation, constructability review, specification review, and expert witness testimony. Due to my familiarity with the Public Contract Code and Government Code as they apply to public works contracting in California, I provide classes and seminars related to project management, and the preparation and coordination of plans and specifications.

2000 TO 2003: Public Works Department, City of San Jose

As Deputy Director of Public Works (City Engineer), I provided oversight and coordination of four Public Works operating Divisions: Airport, Development Services, Engineering Services, and Real Estate. Primary responsibility was the implementation of the San Jose International Airport Master Plan – a two billion dollar series of capital improvement projects. Other duties included long-range department planning and project scheduling, management of operating and capital budget preparation, training and development of department personnel, and setting the highest standards achievable for the four reporting divisions.

1995 TO 2000: Public Works Department, City of San Jose

Assigned as the Division Manager of the Design and Construction Division. I was responsible for managing the implementation of major portions of the City's multi-billion dollar Capital Improvement Program. This included the Traffic and Redevelopment Agency Programs, the Storm Drain Program, the Sanitary Sewer Program, and the South Bay Water Recycling Project. The total dollar value of projects designed and constructed exceeded 50 million dollars per year.

FALL 1994: City Engineer, City of Campbell

Provided contract services to the City of Campbell as City Engineer. I was responsible for managing the engineering section of the Public Works Department on an interim basis during Campbell's recruiting process. My duties included capital project implementation and construction management, private development review, and coordination with other public agencies.

1992 TO 1995: Public Works Department, City of San Jose

Assigned as the Division Manager of the Engineering Services Division. I was responsible for managing the City's Materials Testing Laboratory, the City Survey Section, and the reorganization and computerization of the central filing system for Public Works related documents. I also advocated and managed a pilot program to provide materials testing services and land surveying to other organizations and agencies including the Santa Clara County Transportation Agency, Santa Clara Valley Water District, and Caltrans as a "private" enterprise providing revenue for the City.

JAMES W. FOLEY, P.E.
DETAILED SUMMARY OF EXPERIENCE

1987 TO 1992: Public Works Department, City of San Jose

Assigned as the Division Manager of the Design and Construction Division. I was responsible for managing the implementation of major portions of the City's Capital Improvement Program. This included the Traffic and Redevelopment Agency Programs, the Storm Drain Program, and the Sanitary Sewer Program.

1980 TO 1987: Public Works Department, City of San Jose

Assigned as the Section Manager of the Design Section of the Design and Construction Division. Duties included managing the final engineering design and construction of Public Works Capital Improvement Projects including bridges, streets, light-rail transit, traffic signals, storm drains, sanitary sewers, pipelines, pump stations, water systems, and airport related facilities.

1973 TO 1980: Bechtel Incorporated, San Francisco

Primarily responsible for managing the structural design and project coordination for the Terminal Complex for the New Riyadh International Airport, Saudi Arabia. This encompassed managing a team of design engineers and construction related personnel. Other projects and associated responsibilities included the design and construction of nuclear facilities, pipelines, and oil refineries.

1972 TO 1973: H. J. Degenkolb Associates, Consulting Engineers, San Francisco

Responsibilities included the analysis and design of low-rise and high-rise commercial buildings and industrial structures, investigation of existing buildings for structural adequacy, the preparation of seismic studies and research for public agencies, the preparation of working drawings and specifications, and the coordination of activities during the construction phase of projects.

1969 TO 1972: Public Works Department, City of San Jose

Responsibilities included the design of street improvement projects, the design of several low-rise municipal buildings, the preparation of working drawings and specifications, and the coordination of activities during the construction phase of projects.

JAMES W. FOLEY, P.E.
DETAILED SUMMARY OF EXPERIENCE

Guest Lecturer: Santa Clara University
Stanford University
San Jose State University

Past Memberships On Boards and Commissions: California Board for Professional Engineers, Land Surveyors, and Geologists
Santa Clara Valley Water District Flood Control Zone Advisory Committees
San Jose/Santa Clara Treatment Plant Advisory Commission
American Public Works Association South Bay Area Chapter Board of Directors
NCEES Fire Protection/Design Build Task Force
NCEES Examination Administration Task Force
NCEES Committee on Finances
NCEES Advisory Committee on Council Activities
NCEES Technology Task Force
Caltrans Local Bridge Seismic Retrofit Advisory Committee
Caltrans Highway Bridge Replacement and Rehabilitation Steering Committee

Miscellaneous: Santa Clara County Superior Court – Mediator
California Department of Transportation (Caltrans) – Designated Expert Witness
NCEES Distinguished Service Award 2010
